

PROBLEM

Discovery moved to creators; booking didn't. **£675B** of global leisure-travel bookings flow through OTAs that pay creators **£0** and own the customer. Creators send the intent — OTAs keep the margin and the data.

SOLUTION

Shoppable travel feed. Creator posts trip → traveller books in 2 taps → creator earns for life. Native checkout, unified inventory (stays · tours · experiences), persistent attribution.

BUSINESS MODEL

- Take-rate 4-7% · blended Y5 4.65%
- Creator rev-share 30-50% of net
- ~55% contribution margin at scale
- Zero paid acquisition Y1-2 (creator-led)
- EBITDA breakeven M48 · Y1 EBITDA –£1.56M · +£181k cash cushion
